

Codex-Ready Mortgage Compliance PDF Generation Prompt

Purpose

Use this prompt inside Codex or an AI document-generation pipeline to generate a professional mortgage compliance handbook, render it into a formatted PDF, and integrate it into a mortgage education or training application.

This prompt is designed to support:

- Enterprise-grade mortgage compliance handbook generation.
- SAFE exam mastery training.
- Operational mortgage field training.
- Modular chapter expansion.
- Searchable app integration.
- Future flashcard, quiz, and lesson generation.
- AI-assisted indexing.
- PDF rendering for desktop and mobile viewing.

Execution Rule

Do not generate the full handbook until the user explicitly says:

START FULL MANUAL GENERATION

Before that command, this document should be treated as a specification and implementation prompt only.

Master Instruction

You are generating a complete enterprise-grade mortgage compliance, ethics, fraud prevention, fair lending, underwriting, operations, regulatory, and SAFE exam mastery handbook.

This is not a basic SAFE prep guide.

This is a combined:

- Professional mortgage operations handbook.
- Mortgage compliance manual.
- Fraud prevention field guide.
- Branch training manual.
- Underwriting mindset guide.
- CFPB risk awareness manual.
- Regulatory survival handbook.
- Ethical lending operations guide.
- Advanced SAFE exam mastery workbook.
- Application-ready learning module source.

Teach the reader as if they are becoming:

- A top-producing MLO.
 - A branch manager.
 - A processor.
 - An underwriter.
 - A compliance analyst.
 - A QC auditor.
 - A fraud investigator.
 - A mortgage executive.
 - An ethical lending professional.
 - A CFPB-conscious operator.
 - A secondary-market-aware originator.
-

Critical Output Requirements

Generate:

1. Structured Markdown source.
2. Professional printable PDF.
3. JSON-ready section hierarchy.
4. Chapter metadata.
5. Searchable headings.
6. Compliance keyword index.
7. SAFE exam checkpoint callouts.
8. Scenario-based learning sections.
9. Workflow diagrams in Markdown-compatible formatting.
10. Tables compatible with HTML/PDF rendering.
11. App-library integration metadata.

PDF Design Requirements

Style the output like:

- CFPB training material.
- Enterprise banking compliance manuals.
- Professional underwriting training systems.
- Institutional mortgage operations documentation.
- Legal/compliance field guides.

Include:

- Title page.
- Copyright page.
- Disclaimer page.
- Automatic or generated table of contents.
- Section dividers.
- Numbered chapters and sections.
- Page breaks between major sections.
- Footer page numbering.
- Chapter summaries.
- Review questions.
- Compliance alerts.
- Fraud warning banners.
- Exam tips.
- Operational workflow charts.
- Audit workflow maps.
- Underwriting flow diagrams.
- Red flag matrices.
- Side-by-side comparison tables.
- Ethical decision trees.
- Borrower communication examples.
- Glossary.
- Acronym appendix.
- Index section.
- Compliance reference appendix.
- Federal regulation appendix.
- SAFE exam rapid review appendix.

Visual Organization Requirements

Use:

- Shaded compliance boxes.
- Warning banners.
- Highlighted definitions.
- Workflow arrows.
- Timelines.
- Matrix tables.
- Underwriting checklists.
- Audit checklists.
- Fraud detection charts.
- Escalation flowcharts.
- Color-coded sections.
- Role-based callouts.

Required role-based callouts:

- MLO Perspective.
 - Processor Perspective.
 - Underwriter Perspective.
 - Compliance Perspective.
 - QC Perspective.
 - CFPB Perspective.
 - Borrower Perspective.
-

Application Integration Requirements

Build the handbook so it can be:

- Embedded into a mortgage learning application.
- Searchable by keyword.
- Expanded chapter-by-chapter.
- Rendered dynamically in a web application.
- Converted into lessons/modules.
- Reused for quizzes and exam prep.
- Parsed into flashcards later.
- Indexed for AI-assisted search.
- Integrated into compliance onboarding systems.

Required app-ready metadata:

```
{
  "documentId": "advanced-mortgage-compliance-safe-master-manual",
  "title": "Advanced Mortgage Compliance and SAFE Exam Master Manual",
  "version": "2.0",
  "audience": [
    "MLO",
    "processor",
    "underwriter",
    "branch manager",
    "compliance analyst",
    "QC auditor",
    "fraud investigator",
    "SAFE exam candidate"
  ],
  "formats": ["markdown", "pdf", "json-metadata"],
  "moduleReady": true,
  "quizReady": true,
  "flashcardReady": true,
  "searchReady": true
}
```

Do Not

Do not:

- Condense.
- Oversimplify.
- Summarize lightly.
- Create only flashcards.
- Create only bullet notes.
- Give surface-level SAFE explanations.
- Give textbook definitions only.
- Skip operational application.
- Skip borrower harm analysis.
- Skip underwriter, QC, compliance, investor, and examiner perspectives.

Every major topic must explain:

- What it is.
- Why it exists.
- How it works operationally.
- How it works in real loan files.
- How regulators interpret it.
- How underwriters view it.
- How compliance departments monitor it.
- How QC auditors test it.
- How MLOs violate it.
- How companies get fined.
- How lawsuits happen.
- How borrowers are harmed.
- How investors evaluate risk.
- How examiners investigate it.
- How it appears on SAFE exams.
- How to avoid violations professionally.
- How ethical lenders handle it correctly.

For every major topic include:

- Operational workflows.
 - Process maps.
 - Lender procedures.
 - Compliance procedures.
 - Underwriting commentary.
 - Borrower conversations.
 - Processor conversations.
 - Compliance escalation examples.
 - Internal audit examples.
 - SAFE exam traps.
 - Memory aids.
 - Formulas where relevant.
 - Charts.
 - Diagrams.
 - Comparison tables.
 - Practical examples.
 - Real-world file scenarios.
-

Required Chapter Architecture

Chapter 1 - Enterprise Mortgage Compliance Operating Model

Cover:

- Mortgage compliance as an operating system.
- Consumer risk.
- Credit/collateral risk.
- Conduct risk.
- Role-based perspectives.
- Compliance workflow maps.
- Examiner mentality.
- How closed loans can still be defective.

Chapter 2 - SAFE Act, Licensing, NMLS, and Texas Operational Boundaries

Cover:

- SAFE Act purpose.
- MLO activity definition.
- Taking applications.
- Offering or negotiating terms.
- Compensation or gain.
- NMLS unique identifier.
- Sponsorship.
- Temporary authority.
- Texas SML.
- Texas OCCC.
- Texas one-off origination warning.
- Texas homestead caution.

Chapter 3 - Ethics, Morals, and Professional Conduct

Expand:

- Ethics vs morals.
- Integrity in lending.
- Fiduciary-style conduct.
- Borrower trust.
- Commission conflicts.
- Pressure from branch leadership.
- Referral ethics.
- Disclosure ethics.
- Reputation risk.
- Social media ethics.
- Manipulation vs education.
- Emotional sales pressure.
- Vulnerable borrowers.
- Ethical decision trees.

Include:

- Ethical dilemma walkthroughs.

- Borrower trust case studies.
- Real MLO pressure scenarios.
- Scripts for refusing improper requests.
- SAFE exam ethics traps.

Chapter 4 - UDAAP

Expand:

- Unfair acts.
- Deceptive acts.
- Abusive acts.
- Omission-based deception.
- Emotional harm.
- Servicing misconduct.
- Deceptive lead generation.
- False urgency.
- Fake government affiliation.
- Misleading payment claims.
- Hidden costs.
- Social media marketing abuse.

Include:

- CFPB enforcement logic.
- Audit triggers.
- Borrower complaints.
- Lawsuit examples.
- Compliance remediation plans.

Chapter 5 - Fair Lending

Expand:

- ECOA.
- Regulation B.
- HMDA.
- Regulation C.
- Fair Housing Act.
- Disparate treatment.
- Disparate impact.
- Comparative evidence.
- Underwriting discretion risk.
- Pricing disparities.
- Redlining.
- Reverse redlining.
- Steering.
- Blockbusting.
- Protected classes.
- Discouragement.
- Fair lending analytics.
- Examiner methodology.

Include:

- DOJ enforcement examples.
- Secret shopper investigations.

- Branch pricing disparities.
- Underwriting exception tracking.
- HMDA analytics.

Chapter 6 - RESPA, Referral Risk, Servicing Transfers, and Escrow Operations

Cover:

- RESPA purpose.
- Settlement services.
- Section 8.
- Referral fees.
- Unearned fees.
- Affiliated Business Arrangements.
- Home Loan Toolkit.
- Escrow analysis.
- Initial escrow statements.
- Annual escrow statements.
- Servicing transfer notices.
- Goodbye letters.
- Hello letters.
- Borrower protections.
- Payment misapplication risk.
- Escrow transfer procedures.
- Servicing complaints.

Chapter 7 - TILA, TRID, Loan Estimate, Closing Disclosure, and Timing

Cover:

- TILA purpose.
- Regulation Z.
- APR.
- Finance charge.
- TRID application trigger.
- Six application items.
- Loan Estimate.
- Closing Disclosure.
- Three-business-day CD rule.
- Redisclosure triggers.
- APR tolerances.
- Product changes.
- Prepayment penalty changes.
- Closing delays.
- Lender liability.
- Right of rescission.
- CD redisclosure workflows.

Chapter 8 - LO Compensation and Anti-Steering

Cover:

- LO compensation prohibitions.
- Compensation based on loan terms prohibition.

- Dual compensation restrictions.
- Steering prohibitions.
- Anti-steering logic.
- Three-loan-option rule.
- Pricing discretion concerns.
- Branch override issues.
- Manager incentives.
- Compliant compensation structures.
- Illegal compensation examples.
- CFPB enforcement logic.

Chapter 9 - ATR/QM, HOEPA, High-Cost Lending, and Predatory Lending

Cover:

- Eight ATR factors.
- QM safe harbor.
- Rebuttable presumption.
- Points and fees caps.
- Non-QM analysis.
- Verification standards.
- Residual income logic.
- Compensating factors.
- Litigation exposure.
- HOEPA as amendment to TILA.
- Section 32 loans.
- High-cost triggers.
- APR triggers.
- Points-and-fees triggers.
- Counseling requirements.
- Balloon restrictions.
- Prepayment penalty restrictions.
- Predatory lending.
- Churning.
- Loan flipping.
- Fee packing.
- Equity stripping.
- Net tangible benefit.

Chapter 10 - Mortgage Products and Product-Specific Compliance

Cover:

- Fixed-rate mortgages.
- Adjustable-rate mortgages.
- Index plus margin.
- Periodic caps.
- Lifetime caps.
- Adjustment periods.
- Teaser rates.
- Payment shock.
- ARM disclosures.
- ARM servicing implications.
- Why ARMs are not the most common product.

- HELOCs.
- Revolving credit structure.
- Draw periods.
- Repayment periods.
- Line reuse.
- Variable rates.
- Lien position.
- HELOC vs closed-end second mortgages.
- Reverse mortgages.
- HECM.
- Borrower age 62+.
- Counseling.
- Taxes, insurance, occupancy, maintenance.
- Maturity events.
- Foreclosure triggers.
- Surviving spouse protections.
- Elder abuse concerns.
- Deceptive reverse mortgage advertising.

Chapter 11 - Mortgage Math, Loan Estimate Analysis, PMI, Escrow, APR, and Discount Points

Teach:

- PITI.
- PITIA.
- Escrow calculations.
- Mortgage insurance calculations.
- Amortization basics.
- Total payment analysis.
- APR.
- TIP.
- Lender fees.
- Title fees.
- Prepaid interest.
- Escrow setup.
- Servicing transfer disclosure.
- Underwriting DTI implications.
- Borrower affordability conversations.

Required example:

```
Principal & Interest = $761.78
Mortgage Insurance = $82.00
Escrow = $206.00
Total Payment = $1,049.78
```

Discount points:

```
1 point = 1% of loan amount
$150,000 mortgage
2 discount points
$150,000 x .02 = $3,000
```

Include:

- Why borrowers pay points.
- Interest-rate buy-down strategy.
- Lender pricing mechanics.
- Break-even analysis.
- Prepaid interest structure.
- Tax considerations.
- Secondary market implications.
- Borrower conversation examples.
- Refinance break-even timelines.
- Ethical sales considerations.
- Anti-steering implications.

Chapter 12 - URLA / 1003 and Identity/Fraud Prevention

Cover:

- URLA purpose.
- Alternative names.
- Maiden names.
- Aliases.
- Jr./Sr. distinctions.
- Identity verification.
- Fraud prevention.
- Occupancy declarations.
- Borrower declarations.
- Demographic section.
- Government monitoring information.
- Additional borrower pages.
- Why nicknames create fraud risk.
- Underwriting cross-reference procedures.

Chapter 13 - Underwriting Logic, Reserves, Assets, Appraisal, Title, and Collateral

Cover:

- Underwriting quality.
- 4 C's: credit, capacity, cash, collateral.
- Reserve requirements.
- Liquid vs illiquid assets.
- Vested life insurance cash value.
- Retirement assets.
- Stock liquidation concerns.
- Business funds restrictions.
- Sourced vs seasoned assets.
- Large deposit analysis.
- Gift funds vs reserves.
- Why personal credit cards are not reserves.
- Underwriting reserve stress testing.
- Appraisal review.
- Sales comparison approach.
- Cost approach.
- Income approach.

- Appraisal independence.
- Title insurance.
- Lender's title policy.
- Owner's title policy.
- Lender's title insurance equal to original mortgage amount.
- Title defects.
- Chain of title.
- Wire fraud.
- Forged deed risk.
- Co-ownership structures.
- Tenancy in common.
- Joint tenancy.
- Tenancy by entirety.
- Survivorship rights.
- Probate implications.
- Why "shared tenancy" is not a formal ownership type.

Chapter 14 - Mortgage Fraud Red Flags and Escalation

Expand heavily:

- Straw buyers.
- Air loans.
- Occupancy fraud.
- Fake VOs.
- Fake paystubs.
- Altered bank statements.
- Builder bailout fraud.
- Appraisal inflation.
- Synthetic identities.
- Undisclosed debts.
- Gift fund manipulation.
- Shell company employment.
- Document metadata analysis.
- QC escalation triggers.
- Fraud-for-profit rings.
- Branch collusion.
- Processor fraud.
- Appraisal pressure.
- SAR escalation awareness.
- Investor defect findings.

Include:

- Fraud escalation diagrams.
- Underwriting fraud detection logic.
- QC audit checklists.
- Compliance escalation scripts.

Chapter 15 - Advertising, TCPA, Fair Housing Marketing, and Social Media

Cover:

- TCPA.
- Prohibited calls.

- Abandoned calls.
- Autodialers.
- Prerecorded messages.
- Caller ID rules.
- Texting compliance.
- Consent requirements.
- DNC lists.
- Marketing restrictions.
- Mortgage lead generation risk.
- Social media outreach compliance.
- Why calls between 8 a.m. and 9 p.m. are generally permissible.
- Enforcement penalties.
- Lawsuit exposure.
- Lead vendor compliance risk.
- Fair Housing advertising.
- Equal Housing logo requirements.
- Advertisement sizing rules.
- Prohibited language.
- Discouragement.
- Selective marketing.
- Minority targeting.
- Geographic discrimination.
- Reverse redlining.
- Digital ad algorithm risk.

Include:

- Compliant scripts.
- Non-compliant scripts.
- Branch marketing examples.

Chapter 16 - GLBA, Privacy, Cybersecurity, and Data Protection

Expand deeply:

- GLBA Safeguards Rule.
- GLBA Privacy Rule.
- GLBA Pretexting Rule.
- Consumer data protection.
- Cybersecurity expectations.
- Ransomware concerns.
- Secure document retention.
- Remote worker risks.
- Phishing attacks.
- Borrower identity protection.
- Secure email policies.
- Document disposal.
- Branch office security.

Clarify:

Subtexting Rule is not a GLBA arm.

Chapter 17 - MARS Rule and Distressed Borrower Protection

Cover:

- Mortgage Assistance Relief Services.
- Regulation O.
- Foreclosure rescue schemes.
- Advance fee prohibitions.
- Distressed borrower protections.
- Required disclosures.
- Modification scam structures.
- Scam call examples.
- Compliant counseling language.
- Enforcement actions.

Chapter 18 - Servicing Compliance, Error Resolution, and Borrower Complaints

Cover:

- Servicing transfer workflows.
- Servicers.
- Subservicers.
- Investors.
- Custodians.
- Payment processing.
- Escrow transfer.
- Error resolution.
- Information requests.
- Servicing complaints.
- CFPB servicing enforcement logic.
- Complaint narratives.
- Borrower escalation.

Chapter 19 - QC, Internal Audit, Investor Repurchase Risk, and Examiner Mentality

Cover:

- QC role.
- Internal audit role.
- Compliance role.
- Investor repurchase risk.
- Defect severity.
- File sampling.
- Pre-funding QC.
- Post-closing QC.
- Investor delivery.
- Branch manager collusion.
- Processor escalation.
- Underwriter escalation.
- QC findings.
- Corrective action plans.

Chapter 20 - SAFE Exam Mastery and Recent Assessment Nuances

Include:

- Recent exam nuance checklist.
 - Ethics and morals distinction.
 - Underwriters using the 4 C's: credit, capacity, cash, collateral.
 - 1.75% upfront mortgage insurance premium concept.
 - Reverse mortgages causing negative amortization.
 - FCRA amendments and FACTA concept.
 - Annual and revised opt-out privacy notices.
 - ARM index plus margin.
 - PMI vs FHA MIP.
 - HELOC revolving structure.
 - Servicing transfer timing.
 - TCPA 8 a.m. to 9 p.m. call window concept.
 - GLBA Privacy/Safeguards/Pretexting.
 - HOEPA high-cost triggers.
 - URLA alternate names and additional borrowers.
 - Discount point math.
 - Loan Estimate payment analysis.
 - Reserve asset acceptability.
 - Title insurance and co-ownership structures.
 - Churning / loan flipping.
 - Fraud red flags.
-

Required Training Tools

Include these visuals and tools:

- Compliance workflow maps.
 - Fraud escalation diagrams.
 - Underwriting process maps.
 - Red flag matrices.
 - Title review workflows.
 - Servicing transfer timelines.
 - Disclosure timing charts.
 - ARM adjustment diagrams.
 - HMDA analysis charts.
 - Fraud comparison tables.
 - UDAAP breakdown charts.
 - Audit workflow charts.
 - Branch QC flowcharts.
 - Borrower communication examples.
 - Compliance checklists.
 - SAFE exam memory aids.
 - Acronym charts.
 - Formula breakdowns.
-

Required Real-World Content

Include:

- CFPB enforcement case summaries.
- DOJ fair lending case summaries.
- Mortgage fraud indictment-style scenarios.
- Branch manager collusion examples.
- Processor escalation examples.
- Underwriter escalation examples.
- QC findings examples.
- Investor repurchase examples.
- Servicing complaint examples.
- Borrower complaint narratives.
- Ethical sales conversations.
- Compliant scripts.
- Non-compliant scripts.
- Regulator commentary.
- Examiner logic.
- Investor concerns.

Use official sources where current enforcement examples are needed. Do not invent case citations.

Required Appendices

Add:

1. Glossary.
 2. Acronym appendix.
 3. Compliance reference appendix.
 4. Federal regulation appendix.
 5. SAFE exam rapid review appendix.
 6. Math formula appendix.
 7. Timing/deadline appendix.
 8. Fraud red flag appendix.
 9. Underwriting checklist appendix.
 10. Index.
-

Rendering Instructions

Generate structured Markdown first.

Then:

1. Convert Markdown to professional HTML.
 2. Apply print CSS.
 3. Render to PDF.
 4. Generate JSON metadata:
 - document ID.
 - title.
 - version.
 - chapters.
 - headings.
 - keyword index.
 - section summaries.
 - SAFE exam checkpoints.
 - scenario sections.
 - formulas.
 - tables.
1. Copy PDF, Markdown, and JSON metadata into application library.
 2. Update application library index.
 3. Rebuild deploy package.
-

Final Instruction

Do not condense.

Do not produce a short study guide.

Generate a professional, deeply explained, operationally useful, compliance-aware, underwriting-aware, SAFE-exam-focused handbook that can function as:

- A printable manual.
- A training workbook.
- A compliance reference.
- A mortgage operations guide.
- A fraud prevention manual.
- A branch onboarding resource.
- A dynamic learning application source.
